In case you didn't know "Why I Give to artma"

A friend asked me to consider donating my work to artma. I found the story made me cry. The art made me smile and the event made me laugh. Come, have fun and meet a new friend.

– Sean Doherty, Denver, CO

I love giving to artma because ... I am an artist, a mother, a cancer survivor and because Steven Adams and his amazing volunteers create a great night, with wonderful artistic exposure, a chance to be at a great party with other artists and people who believe, like I do, in helping others – most of all children.

– Rose Kelly, Boulder, CO

When I think of artma, I think of Steven and Joan. They experienced unthinkable tragedy and then moved on with such incredible commitment to help others in honor of their daughter Morgan. I am moved by their strength and want to be part of that effort.

– Gifford Ewing, Denver, CO
